LAVANDERIAS

CURRICULUM VITAE

I - Cláudio Frederico Taves

Technical Technician and Installer with more than 40 years of experience in Kitchens and Laundries.

- 1961 - Worked for 10 years in the Oscar Taves Firm, installing Kitchens, Laundries, Boilers and Water Heating, for Hotels, Industries, Restaurants and Hospitals.

- HOBART Corporation - For 10 years working as responsible for special and international clients, having technical responsibility for the design and installation of kitchen equipment in hotels such as Sheraton Rio, Inter Continental Hotel, Meridien Rio and Bahia, Othon Palace Rio and Bahia. Marriott Catering at Rio de Janeiro International Airport.

- 1977 - Participated in an international course on equipment at Seminar Hobart Corporation World Headquarters, Troy, Ohio, USA food industry and Dishwashing Systems (parallel course addressing teachings in the area of modern equipment, manufacturing, and use in large kitchens) . He attended the Hotels and Restaurants Association Show at Mackormic Place, Chicago, on this date as an exhibitor.

- VARIG RIO CATERING - Contracted to design the new Varig Commissary at Galeão, to serve the food service of the Varig aircraft departing from Rio de Janeiro. Later, the contract was extended to the purchase of the equipment, its installation and supervision, developing a new system of installation of tables with stainless steel sinks. During this work he visited several factories in Germany, Italy, France, U.S.A. and Canada for technological upgrading.

In 1990, it was able to introduce and implement the first QUICK CHILL system in Brazil, modifying Varig's Catering system in Rio (Galeão). We introduced Combined Convection ovens, two units imported from Germany with a total capacity of 30 GN 1/1. We imported two Quick Coolers from Italy, cooled mechanically by special compressors. Finally we built two more cold rooms to keep food cooled at 2 ° C for 3 days. With these changes, Catering Rio continues to be the most modern cuisine in South America. It also had the advantages of working with only one shift instead of three, not wasting or lacking food for on-board service, and controlling quality of food safely. - Gourmet Gate - purchased the Varig Catering when it suspended its services.

- 1985 - Hired as an employee by VARIG, he designed other Caterings and Kitchens (Porto Alegre, Asunción, Luanda). He studied and expanded his knowledge on Quick Cooling and Freezing in Italy and France, finishing by implanting the Rapid Cooling System in Varig itself.

- 1989 - Created the CT ASSESSORIA DE PROJETOS TÉCNICOS LTDA., A private company to work in the area of kitchen and laundry projects, due to the growing number of clients. Worked on the revision and adaptation of foreign projects of kitchens for installation in Brazil, including some made-to-measure Brazilian equipment.

- 1991 and 2007 - Participated in the National Restaurant Association Show (NRA) for Hotels and Restaurants at Mackormic Place in Chicago.

- 2015 - Honored by Sindal (Union of Manufacturers of Equipment and Services for Industrial Kitchen.) during Equipotel. For his outstanding professional excellence in consulting and design for foodservice.

CT ASSESSORIA DE PROJETOS TÉCNICOS LTDA.

- Participates annually in the national events EQUIPOTEL and FISPAL - Equipment, Products, Food and Service Fairs for Hotels, Industries, Restaurants, Industrial Kitchens and similar.
